

Fragrance Notes

A simple one-page guide to how a scent develops

A fragrance is built in layers. The opening appears first, the heart gives the scent its main character, and the base creates depth and staying power as everything dries down on skin.

How the layers connect

TOP NOTES

First impression | about 5-30 minutes

Citrus, herbs, light fruits, airy greens

blends into

MIDDLE / HEART NOTES

Main character | about 30 minutes-4 hours

Florals, spices, aromatics, soft fruits

settles into

BASE NOTES

Foundation | often 4-12+ hours

Woods, musk, amber, vanilla, resins

Common note families

Families often overlap to create an accord.

Easy ways notes work together

- **Citrus + floral** - bright and clean
- **Floral + woods** - smooth and balanced
- **Spice + vanilla** - warm and sweet
- **Aquatic + musk** - fresh with a lasting finish

The easiest way to read a fragrance

Opening -> Heart -> Dry-down

Notes describe what a scent reminds you of; they are not always a list of literal ingredients.
